

Give your students a competitive edge in the workplace

Virtual Internship

Virtual job experience based on graduate roles with real Australian employers.

In the Navitas Professional Virtual Internship Program, your students will undertake work based on real graduate roles with leading Australian employers. Our program can be customised to meet the unique educational requirements of each student.

Your students will be provided with access to employee resources, given authentic tasks and receive industry feedback that is specific to their career needs.

Your students will develop diverse skill sets through:

- Authentic work tasks to complete in each module.
- Tasks that accompany video instructions from real employees.
- Receiving feedback on tasks that will help them build confidence in Australian workplaces.
- Accessing unique and tailored content, anytime, anywhere.

Build confidence in applying knowledge to practical, graduate level tasks.

Give your students the chance to **develop their employability skills.**

Provide the tools needed to **solve real world business problems.**

Deliver feedback on performance and build employability tool kit.

Contact us to discuss tailored programs that will give your students an edge in the workplace
