

# VIRTUAL INTERNSHIP EXPERIENCE

Tertiary students are increasingly expecting more value from education and training providers like universities and colleges. Go beyond providing your students with a degree or certification with a Navitas Professional Virtual Internship.

The Navitas Professional Virtual Internship experience gives a unique opportunity to engage students early in their education journeys and further provide students with authentic workplace experience to enhance their learning.

Give your students a low-risk environment for them to test their skills and apply their theoretical knowledge in their chosen study area. They will be able to develop practical skills and improve employment prospects while completing work at their own pace online.

## COURSE OVERVIEW

Duration / 5-6 hours per stream

Available streams /

Finance & Accounting

Career Search

Australian Corporate

STEM

Australian Health Industry

Navitas Professional can develop custom programs tailored to your organisation's learning requirements, values and processes suitable for your student body.
